ORIGIN OF THE SAMSARA NAME

In the Hindu and Buddhist religions, samsara represents the **cycle of rebirths**. Symbolized by a wheel, it means in Sanskrit «everything that circulates», and induces in particular the ability to accept the succession of events predefined by karma.

ASSOCIATION HISTORY

The association was created in June 2015 for humanitarian and non-profit purposes.

Its action consists in creating and/or supporting actions in favour of children, young people, adults and families from remote villages in Nepal, in order to improve their living conditions, particularly in terms of accommodation, nutrition, health, education and training.

In this context, the association can conduct projects directly with one or more children, young people or adults, provide support to their families or work with local foundations.

Special actions are also carried out such as helping to **finance the education of children** from these villages, **fund driving licences** and specific trainings, **provide medical care...**
